

INTIMATE SUSTAINABLE CARE

for **health**, for our **planet**.

WHO ARE WE & WHAT WE AIM FOR

At Femi.Eko®, we are committed to **redefining intimate care** through innovation, sustainability, and high-performance products. Our mission is to provide **trusted, eco-conscious solutions** that protect **womens' well-being** while **minimizing environmental impact**.

CEO & FOUNDER

Femi.Eko® is a danish brand, founded in 2022, by Narcisa Christiansen with one purpose: to make high-quality, sustainable intimate care accessible to every woman. **Period is normal, and it's care should never be a luxury.**

Narcisa Christiansen

REAL PROBLEMS, THAT NEEDS CHANGE

PERIOD POVERTY:

Did you know that approximately 10% of women in Europe cannot afford menstrual products? This reality leads to isolation, school or work absences, and a reduced quality of life. Period is a normal stage in every woman life and should not come at a high cost.

CHEMICALS & IRRITANTS:

Many conventional products contain toxic chemicals like chlorine, artificial fragrances, pesticides, and other harmful substances that can lead to irritation, intimate imbalances, and allergies. Long-term exposure to these ingredients has been linked to hormonal disruption and increased health risks, including certain cancers.

ENVIRONMENTAL POLLUTION:

About 60% of conventional pads are made of plastic. These products take hundreds of years to decompose, significantly contributing to global waste. Each month, millions of such products end up in landfills or oceans, polluting the environment and harming ecosystems.

FEMI.EKO'S SUSTAINABLE SOLUTIONS

Our products are designed to care for people, health and the environment.

CONSCIOUS CARE

Reusable or disposable, our innovative products provide long-lasting comfort and reliable protection, ensuring quality period care and well-being for all.

HEALTHY CHOICE

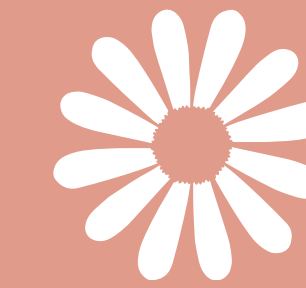

Made without chlorine, pesticides, or harmful chemicals, our products support intimate balance, reducing irritation and offering a healthier, skin-friendly experience.

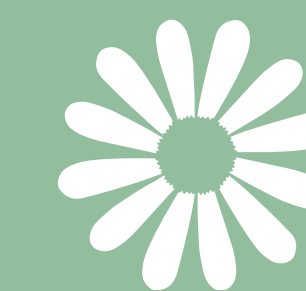

GREEN IMPACT

Our reusable and plant-based products help cut waste and minimize pollution, providing a cleaner, greener future.

OUR PROMISE

We are here **to support you**.
We provide **practical, reliable, and safe solutions** so every **woman** can **feel free and confident every day**.
Together, we can take care of women and the planet.

Sustainability and accessibility go hand in hand. **Femi.Eko®** offers innovative, reusable solutions that **align with modern consumer demands**—delivering quality, efficiency, and **long-term value** for both women and the planet.
